Reason for Allowance

Claims 8-12 are allowed.

Claim 8 recites “applying a current collector having a plate-like form onto a surface of a substrate in such a manner that an uncover portion of the substrate is formed around the current collector; disposing a gasket element in the form of a frame having an opening for accommodatting the current collector on the uncovered portion of the substrate in such a manner that the current collector laterally abuts on the gasket element to define a concavity; and removing the substrate from the current collector and the gasket.

These features in combination with the other elements of the claim are neither disclosed nor suggested by the prior art of record.

Claims 9-12 variously depend from claim 8, they are allowed for the same reason.

Conclusion

The prior art relevant to the disclosure of this application and not being used in the rejections. USPN 6356433 to Shi and 6741450 to Nakazawa et al. for teaching the forming of double layer capacitore by assembling intermediate products.

USPN 6625007 to Sakata et al. for teaching the making of a double layer capacitor having a gasket surrounding polizable electrodes .
